CREATING TOMORROW

Spree Enterprise has been a leader in the cleaning contract industry for more than 25 years. During this period Spree has developed services that are unique and has on many occasions set new standards by raising the benchmark with new technology and initiatives.

Our company's cleaning solutions have helped solve some of the toughest problems facing the industry and we continue to provide innovation through various knowledge based expertise and processes. But it all starts with having a little inspiration and motivation, to establish an understanding that our individual customers needs are different, so we have built the foundation of our operation to be flexible, responsive and innovative, enabling us to customise cleaning solutions to suit our customers' needs and wishes.

We put a lot of effort into recruitment, employee training and people management. We also run a number of key initiatives like our proprietary training programs that guide and teach our staff the skill set requirements for the specific service programs. It also

motivates them to maintain an attitude, service-levels and ethics that ensure that as a company we deliver on our promise 'Every time'.

We also put a lot of emphasis into employee development and only by continuing to offer desirable working conditions can we hire and retain the right calibre of people we need to deliver a high quality service to our customer.

Working closely with our suppliers enables us to develop new tools and materials to improve our cleaning services, enhance the working conditions for employees and adopt working practices that are environmentally responsible minimising the impact on our eco-system.

Spree has a diversified portfolio of cleaning and counts many of Australia's leading corporations and governmental organisations as clients.

**SELECT FROM A COMPREHENSIVE RANGE OF SERVICES.**

**A wide variety of services are available to meet the requirements of both public and private sector clients. Today we provide a simple and also highly specialised range of cleaning solutions covering virtually every need, such as:**

- General Office Cleaning
- Washroom and Amenity Cleaning
- Hard floor surface scrubbing, buffing and polishing
- Hard floor surface stripping and sealing
- High level roof cleaning
- Window Cleaning
- Public Area and Open Space Cleaning
- Shopping Centre Cleaning
- High Pressure Cleaning
- Power Sweeping
- Periodical Cleaning
- Once Off or Initial Cleans
- Builders Cleans

The general consensus in today's world is that cleaning is most often thought of as a commodity ordinarily an inherent part of everyday life. However it is so much more.
