THE BENEFITS

The Benefits of Paper Recycling One tonne of office paper in landfill decomposes into approx. 300 000 litres of methane (CH₄), a greenhouse gas 21 times as detrimental to our environment as CO₂.

The same amount of paper recycled equates to a saving of, 17 trees or 1680 kg timber 2.5 cbm landfill, 26,317 litres of water, 1752 litres of oil, 8.2 months energy for average Australian household, 3.98 tonnes of greenhouse gas (CO₂)
