

# Carpet Care.

**Spræe**  
enterprise

CREATING TOMORROW

**Carpets are one of your most important assets and yet they are probably most neglected.**

**Overtime your carpets become soiled, unavoidably encounter high levels of traffic and become accustomed to spillages and stains along with also those little bugs that are invisible to the naked eye, however they continue to breed and multiply amongst the embedded dust, dirt and bacteria.**

If you are like most you probably use your vacuum cleaner to clean your carpets. Well there's certainly nothing wrong with frequently vacuuming your carpets and it's the next best thing to steam cleaning, but vacuuming is not enough. In order to protect your carpets and your health, you should have your carpets professionally steam cleaned at least once a year.

At Spree Enterprise we have been cleaning carpets for over 25 years and we are always evolving with new ways of improving our carpet cleaning services. Our carpet steam cleaning solutions can be packaged to suit your needs, from our specialised **8 Step REJUV- Process** to just a normal **4 Step Steam Cleaning Process**.

Our deep penetrating steam cleaning system helps neutralise odours, removes old stale smells, eradicates bacteria and mould and most importantly it's incredibly great for your health. You will also be astounded to know that over the last 25 years we developed a stain removal treatment that is guaranteed to remove 4 out of every 5 of stains treated.

# REJUV - Carpet Cleaning Process:

## 1.

### INSPECTION

THIS IS WHERE ONE OF OUR EXPERIENCED TEAM MEMBERS WILL INSPECT THE CARPET AND IDENTIFY SOILED AREA AND STAINS.

## 2.

### FILTRATION VACUUMING

WE TAKE THE INITIATIVE TO MAKE SURE THAT EVERY AREA OF YOUR CARPET IS TREATED AND STEAM CLEANED, SO WE MOVE THE FURNITURE AND PRE-VACUUM THE CARPET AREA WHICH WILL BE STEAM CLEANED WITH HIGH SUCTION 7 LAYERED FILTRATION SYSTEM.

## 3.

### PRE-SPRAY

IN THIS STEP OUR EXPERIENCED TEAM MEMBER WILL PRE-SPRAY THE SOILED CARPET AREA WITH OUR CAREFULLY SELECTED ECO-FRIENDLY PRODUCT, PREPARING THE CARPET FOR THE MOST EFFECTIVE CLEAN.

## 4.

### TREATMENT

PERHAPS ONE OF THE MOST CRUCIAL STEPS IS APPLYING OUR SPECIAL STAIN REMOVAL TREATMENT TO THE STAIN AFFECTED AREAS, ENSURING THAT WHEN THE STEAM CLEAN TAKES PLACE THERE IS THE HIGHEST PROBABILITY OF 100% REMOVAL. WE ALLOW APPROXIMATELY 15 MINS FOR THE REMOVAL TREATMENT TO PENETRATE THE STAINS.

## 5.

### MACHINE BUFF

ONCE THE STAIN REMOVAL TREATMENT HAS SETTLED INTO THE STAIN AND HAS ENGAGED ITSELF INTO THE PARTICLES WE MACHINE BUFF THE STAINS ON A SPEED OF 500 RPM, TO ENABLE THE PARTICLES FORMING THE STAIN TO BE BROKEN UP AND EXTRACTED DURING THE STEAM CLEANING PROCESS.

## 6.

### PROTECTION

DURING THIS STEP WE PREPARE THE AREAS AND FURNITURE WITH PROTECTION PADS AND FOAM BLOCKS TO ENSURE THAT WE PREVENT THE CAUSE OF ANY DAMAGE AND IT ALLOWS US ACCESSIBILITY TO THE ENTIRE CARPET BY ELEVATING OBSTACLES THAT MAY STAND IN OUR WAY.

## 7.

### STEAM CLEAN

THIS IS WHERE WE PERFORM THE STEAM CLEANING PROCESS, DURING THIS STEP WE ALSO USE A FRUIT BASED CITRUS CHEMICAL THAT WILL DISINFECT, DEODORISE AND GIVE YOUR CARPET A FRESH FINISHING TOUCH.

## 8.

### FINAL GROOM

THE LAST STEP IN THE ENTIRE PROCESS IS THAT WE GIVE THE CARPET FIBRES A FINAL GROOM SO THAT IT LOOKS UNFORMED AND ENABLES IT TO DRY FASTER.

Our steam cleaning process uses a citrus based bio-degradable deodorised disinfectant chemical that contains no VOC solvents or ingredients that are harmful to our environment. We also use recycled water where ever it is possible, combined with recycling the water that is used to steam clean your carpets.

We also use air movers when you require your carpets to be dried quickly, so you can treat your carpets all year round.

REJUV-Clean contains a unique citrus based crystallising polymer technology that treats stained and soiled areas so that it makes it easy to extract these items from the affected

carpeted areas and in some cases with subsequent post vacuuming. The crystallised detergent acts as a retardant to soil minimising the impact on the carpet once it has been treated and most important of all it is safe for all types of synthetic and wool carpet fibres.

**So whether your needs are commercial or residential Spree Enterprise is sure to have your carpets and upholstery looking almost new, odourless and smelling fresh.**

Call us today on  
**1300 788 080**
